

WHITEPAPER

Official whitepaper of SabreCat (SABRE) - *Not Financial Advice, Do Your Own Research*

SabreCat - How it originated?

We have been involved in cryptocurrency since 2015, previously focussing on trading and long-term holding of both stable coins and altcoin/meme coins.

Through this experience we have followed closely the successful and unsuccessful launches of various meme coins and tokens.

We have always had an interest and passion for meme tokens, so we decided to create our own and SabreCat was born.

Why the SabreCat?

The meme token market is over saturated with Doge, Inu, Floki, SHIBA, Meta branded tokens. We believe our SabreCat name, and branding will allow us to stand out from all the over-used meme tokens.

We didn't invent a new way a token works, and we don't claim to be a revolutionary utility but what we do want to focus on is building a community, clever branding, and marketing so that our holders will benefit from both BUSD rewards for holding and the long-term growth of the tokens value.

Charity

SabreCat is part of the animal community. We created this token to reward our holders and we also want to give back to animal charities of our holder's choice. At each major milestone we will donate as follows:

- \$100K marketcap \$1,000
- \$500K marketcap \$5,000
- \$1M marketcap \$10,000
- \$10M marketcap \$25,000

Our charity focus gives us a sense of purpose to grow the token and provides a real-life use-case for SabreCat.

Tokenomics

Total Supply: 100,000,000,000

BSC Contract: 0xa363D498d69202ddAf562FBa0d79C074610C04E9

Fees 12%

- 5% BUSD rewards
- 4% Liquidity
- 3% Marketing

Liquidity Locked, *Anti-bot function enabled to prevent sniper bots at PancakeSwap listing.*

Our Goal

Our main goal is building a community of holders. We all dream of getting in early on the next Moonshot meme token, we can't do this without a vibrant, active, and growing community - we NEED you!!!!

We are a meme token that will focus on creating a community for all level of crypto enthusiasts to participate in.

NFTs - The NFT space is exploding and the medium to long term plan is to move into NFTs and create a SabreCat collection. This is expected to start during stage 3 or stage 4 of our roadmap.

Our Future

The initial focus is on a successful private sale - we have engaged key marketing firms to help us drive up interest in this critical early stage.

Following the private sale, we will launch an aggressive marketing campaign to create FOMO and increase brand awareness as we build up to the presale on PinkSale in January/February 2022.

Following the presale CoinMarketCap and CoinGecko applications will be submitted.

As our holder base grows, we will shift attention to increasing trading volume and further growing the brand. We will engage with our community, and they will be actively involved in the direction SabreCat heads towards, whether this through NFT possibilities, exchange possibilities or other.

For now, we are heavily focussed on a good market entry, building a community, and marketing campaigns to spread awareness of this token!

The logo for SabreCat, featuring the word "SabreCat" in a stylized, bubbly font with a blue-to-orange gradient and a white outline. The letters are bold and rounded, with a slight shadow effect.
